MUSIC MOVES YOU!

Children's Instruments

The Play & Learn programme is designed to help young children from the age of 4 enjoy their first efforts at making music and to achieve progress with the help of a simple teaching system.

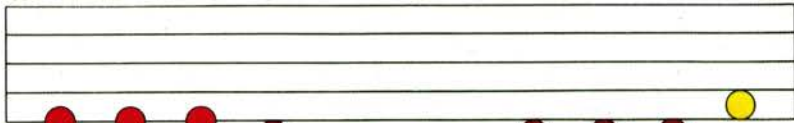

The use of coloured notes enables even the younger children to learn simple melodies quickly without any knowledge of music.

In the system the 7 basic notes are shown by means of 7 different colours; the eighth note being exactly one octave higher than the first note appears in the same colour as the first note. The position of the coloured note in the five-line notation chart tells if it is to be played in high or low pitch.

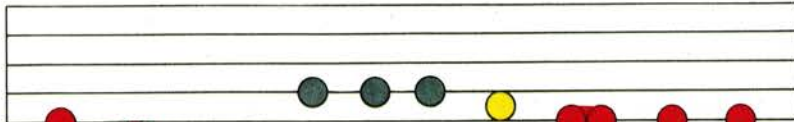

This five-line notation system in which the coloured notes appear is the conventional music 'Stave' thus making it easier later on to learn normal music notation.
